## Aussie rockers

HOT on the heels of the release of their first studio album in eight years and its rockin' comeback to the Australian music scene, The Screaming Jets are heading to Cairns next month on its official album tour.

It's been a long time coming, but the new album *Do Ya* by The Screaming Jets was certainly worth the wait.

Eight years on from the band's last studio album *Scam*, *Do Ya* is the epitome of the style of Oz rock that the band has become known for.

Although the band has

been no strangers to the Australian public across the years, the release of its new album will make the listening public sit up and pay attention.
